

Short Term Remote Learning Plan  
(UPDATED 10/1/21)  
Marion Jr.-Sr. High School

2021-2022

**Purpose of Short Term Remote Learning (STRL):**

STRL will be enacted on an individual basis when a student cannot be in school due to quarantine/ illness and the school continues in-person hybrid learning. **STRL will not be used for absences unrelated to quarantine or illness.**

**Attendance during STRL:**

Attendance will be taken during STRL by a direct contact from a school staff member with the student (or the parent- student preferred). The staff member will attempt to contact the parent/guardian first, and either ask to speak with the student or ask if there is another way to reach the student. The staff member may request to meet with the student via zoom. Email exchange between staff and student may be helpful, but does not meet requirements to be considered “present” in attendance.

**Students that attend WTCC or New Visions:**

If a student that attends WTCC or New Visions is quarantined and those programs are still operating in-person, the student should contact their program instructor to determine the method by which they will access their program.

**Learning materials and instruction during STRL:**

As long as they are experiencing good health, students are expected to continue learning and completing assignments during STRL. Teachers will provide either a zoom link for students to zoom into the in-person class or a learning resource such as a video, notes, etc. The following chart gives each teacher’s specific plan for students that are on STRL:

| Teacher Last Name         | Method of access   |
|---------------------------|--|
| Alba                      | Stand-alone ENL classes ---- Zoom into in-person class at typical time.<br>Push in classes --- I will follow classroom teacher plan  |
| Bargh                     | Zoom into speech/language therapy according to their normal schedule.  |
