Director of Educational Services

**Daniel Drifill**  
Director of Finance and Technology

## Smart Schools Bond Act Investment Plan | Phase II

Subsequent to the completion of Phase I of our SSBA plan and the presented preliminary plan for Phase II, Board approval of the investment plan is required to move forward in the process. After vetting, presenting, and posting the preliminary plan for Phase II, we are confident in our approach to providing a stable network infrastructure to be the backbone of our district's Personalized Learning initiative. The following is our investment plan for the next wave of our Smart Schools Bond Act resource utilization:

SSBA Category & Description	Phase II Budget
<b>School Connectivity</b>	
Cabling upgrade with additional network drops	\$242,889
Hardware (AP/Switches)	\$85,000
<b>Classroom Technology</b>	
Flat panel displays with stands and configuration	\$224,000
<b>High Tech Security</b>	
Additional camera equipment & mobile client	\$25,000
<b>Total SSBA Phase II Budget</b>	<u>\$576,889</u>

As a reminder, the next step for Phase II is to submit the formal plan to the state. The plan is then subjected to a rigorous review process. When approved, work can then commence. We appreciate any ongoing questions or comments from the educational community at [mSMARTSCHOOL@MARIONCS.ORG](mailto:mSMARTSCHOOL@MARIONCS.ORG)
